

LEON H. LIEGEL, PhD: Short Professional Resume – 1 September 2022

E-mail leon.liegel@oregonstate.edu
Languages English; Bilingual in Spanish since 1970
Education B.S., Forestry (Spanish minor), Univ. Wisconsin, Stevens Point, 1970; M.S., World Forestry, SUNY-ESF, Syracuse, 1973; Ph.D., Forestry/Soil Science Co-majors, NC State - Raleigh, 1981.

Oregon State University (OSU), Corvallis, OR, 97331 From 2018 to present: Instructor/Courtesy Faculty, [Crop and Soil Science \(CSS\) Dept.](#); Co-developer with two colleagues for an online, 3-quarter-credit course, SOIL 511 - [Soil: A Natural and Societal Resource](#), offered Winter terms 2019 & 2020 and Summer 2021; member of new, 4-person CSS-DEI Committee for Academic Year 2021-22. Since 2008: Courtesy Faculty, OSU College of Forestry (COF) [Forest Ecosystems and Society \(FES\) Dept.](#); Fall 2007 to Winter 2016: Taught SNR 533 seven times--- [Alternative \[Nontimber\] Forest Products](#), a then 2-quarter-credit course in the 18-credit [Sustainable Natural Resources \(SNR\) Graduate Certificate](#). Since 2013: Certified [Quality Matters \(QM\)](#) Peer Reviewer for classroom, online, and blended courses.

Previous Positions while at OSU: 2005-2015, Editorial Board, *Environmental Management*; Sept 2001 to Dec. 2007: Part-time Research Associate, Forest Science Dept. and OSU-COF Coordinator, Sustainable Forests Partnership.

USDA Forest Service Positions (1973-2001) Pacific Northwest Research (PNW) Station, 3200 SW Jefferson Way, Corvallis, OR 97331: June 1998 to August 2001, GS-460-14 Research Forester; Jan. 1993-June 1998, GS-460-13/14 Team Leader, Forest Health Monitoring; May 1985-Dec.1992, GS-470-13 Research Soil Scientist [May 1985-Sept 1991, interagency agreement, US Environmental Protection Agency (EPA), 200 SW 35 St., Corvallis, OR, 97333]; Institute of Tropical Forestry, Rio Piedras, PR: 1979-85, GS-470-11/12 Research Soil Scientist; 1975-78, GS-460-09/11 Research Forester; 1973-74, GS-462-09 Supervisory Forestry Research Technician.

Other Positions 1971-73: Natural Resources Specialist (land use inventory), Puerto Rico Area of Natural Resources, San Juan, PR; and 1 July to 31 August, 1970: GS-460-05 Forester, USDA Soil Conservation Service (SCS), Bayamón, PR.

International Forestry-Soil Science-Natural Resource Experience Brazil, 1 wk, 1980; Colombia, 2 wks, 1971; Costa Rica, 10 wks, 1971-90; Germany, 4 wks, 1975; Haiti, 2 wks, 1982; Honduras, 2 wks, 1971; Jamaica, 4 wks, 1979-83; Puerto Rico, 14 yrs, 1970-98; Suriname, 1 wk, 1979; Trinidad, 4 wks, 1979-84; England, 2 wks, 1975-90; Venezuela, 5 wks, 1979-83.

OREGON STATE UNIVERSITY (OSU) – SUSTAINABLE FORESTRY

1 Jan. 2004 to 31 Dec 2007: Coordinator, OSU Sustainable Forests Partnership and member, National Sustainable Forests Partnership; July 2002 to 1 Jan. 2004: Co-Principal Investigator with Steve Radosevich and others for a \$250K competitive grant from the National Commission on Science for Sustainable Forestry: "Survey Lessons Learned About...Forest Biodiversity..."; Sept. 2001 to Dec. 2003, via the OSU Sustainable Forestry Partnership: co-developer for a \$10K OSU *Critical Issues* grant to create curriculum for a 14-week Sustainable Natural Resources Graduate Program for summer 2006; as courtesy Associate Professor, 1986-2002: give guest lectures, seek grant funds, and exchange information with students and faculty; 1996-1997: coordinated an \$8K competitive grant to prepare a U.S. Man and the Biosphere (US-MAB) teaching case study on human and natural resource sustainability; 1993-1997: coordinated a \$51K competitive grant from the US-MAB Program with five regional scientists to study the biological, sociocultural, and managerial concerns of commercial and recreational harvesting of chanterelle mushrooms on the Olympic Peninsula--13 publications including [Poster presentations for scientific meetings](#), 1989; [AMBIO Special Report No. 9, 1998](#) [The MAB Mushroom Study]; and 3 posters.

FOREST HEALTH MONITORING (FHM)

July 1998-August 2001: Resource Analyst to report and interpret FHM field data and other resource databases; Jan. 1993-June 1998: Team Leader for regional FHM activities in CA, OR, and WA with a \$250K to \$1.1 million annual budget: supervised baseline detection monitoring field plot establishment; conducted personal research to identify mensuration, damage, crown, soil, and other forest (health) "indicator" conditions for diverse regional and national ecosystems; member of a 6-person Core Team that administered an annual \$3 to 5 million FHM National Program in the United States--22 publications, 4 posters.

CULTURE AND BIOLOGY OF FOREST PLANTS

Oct. 1991-Dec. 92: Part of a 5-member team that investigated conservation biology of Pacific yew ([Taxus brevifolia](#)). Personal contribution was determining effects of stand density, soils, and other variables on individual tree and stand growth across dry, moist, and wet landscapes in Oregon--2 publications.

WHOLE-WATERSHED STUDIES AND GLOBAL CLIMATE CHANGE RESEARCH

May 1985-Sept. 1990: Managerial Soil Scientist and member of a multidisciplinary team that made [regional predictions about acidic deposition effects on 262 lake/stream watersheds in the eastern United States](#); supervised contractor projects; analyzed, interpreted, and published data about effects of land use on soil physical and chemical properties and lake water chemistry. Oct. 1990-Sept. 1991: Evaluated the potential of forest practices to sequester greater carbon in temperate and tropical ecosystems--9 publications, 3 posters.

LEON H. LIEGEL, PhD: Short Professional Resume – 1 September 2022 (continued)

TROPICAL ECOSYSTEMS RESEARCH

June 1973-May 1987: Conducted independent/cooperative research in Puerto Rico and Latin America on land use, silviculture, forest genetics, growth, ecology, nutrient cycling, and [nursery practices for plantation and natural forests](#). Grants: A.E. Lugo and L.H. Liegel, 1980, *Nutrient dynamics of tropical tree plantations in a Biosphere Reserve*--a \$50K competitive US-MAB grant; L.H. Liegel, 1983-87, Principal Investigator for a US-AID \$150K study to [predict growth and site response of *Pinus caribaea* across Costa Rica, Jamaica, Puerto Rico, Trinidad, and Venezuela](#)--46 publications, 1 poster.

FOREST HEALTH, FOREST SOILS, SOIL SCIENCE, AND SUSTAINABLE FORESTRY PUBLICATIONS

Radosevich S., Fletcher, R., Kerkvliet, K., Liegel, L., Smidt, M., Jacobson, M., Finley, J., Luloff, A. 2003. Final Report: Survey the lessons learned about managing forests for biodiversity and sustainability based on practical experiences. Results from a \$250K competitive grant from the National Commission on Science for Sustainable Forestry (**NCSSF**), 2002-2003.
