

German Vargas Gutiérrez, Ph.D.

OSU Botany, 2701 SW Campus Way, Room 2503, Corvallis, OR 9733, United States of America.

Email: vargasgg@oregonstate.edu

Website: <https://forestecophys.com/>

Education

-
- 2021 Ph.D. Plant Biological Sciences, University of Minnesota
2016 Lic. Natural Resources Management (Honors: *Summa cum laude*), National University of Costa Rica
2013 B.Sc. Tropical Biology, National University of Costa Rica
-

Professional interests

Plant eco-physiology, plant hydraulics, photosynthesis, functional ecology, forest dynamics, global change biology, ecological forecasting, ecological modeling, phylogenetics, social and environmental justice, natural resources management.

Professional experience

-
- 2024 – present Assistant Professor, Department of Botany & Plant Pathology and Department of Forest Ecosystems and Society, Oregon State University.
2022 – 2024 Climate and Global Change Postdoctoral fellow, University Corporation for Atmospheric Research (UCAR), National Oceanic and Atmospheric Administration (NOAA). Hosting institution: University of Utah.
2021 – 2022 Postdoctoral Research Associate, School of Biological Sciences, University of Utah.
2019 – 2022 Research Associate, International Institute of Tropical Forestry, U.S. Department of Agriculture – Forest Service, Puerto Rico.
2016 – 2021 Graduate Research Assistant, College of Biological Sciences, University of Minnesota.
2015 – 2016 Field Technician, College of Biological Sciences, University of Minnesota.
2014 – 2015 Graduate Research Assistant, National University of Costa Rica.
2014 Research Fellow Associate, Smithsonian Tropical Research Institute.
2013 Research Intern, College of Biological Sciences, University of Minnesota.
2011 – 2013 Undergraduate Research Assistant, National University of Costa Rica.
-

Publications

Peer-reviewed Journal Articles (copy available upon request)

Submitted

25. Anderegg, W. R. L., A. T. Trugman, **G. Vargas G.**, C. Wu, and L. Yang. Current forest carbon offset buffer pools do not adequately insure against disturbance-driven carbon losses. *Global Change Biology*. In Review, 2024. Pre-print available: <https://doi.org/10.1101/2024.03.28.587000>
24. Fickle, J. C., **G. Vargas G.**, and W.R.L. Anderegg. Ring-specific vulnerability to embolism reveals accumulation of damage in the xylem. *New Phytologist*. In Revision, 2024.
23. Allerton, T., S. Van Bloem, and **G. Vargas G.** Fast-risky vs. slow-safe life histories mediate resprouting among Caribbean tropical dry forest trees. *Functional Ecology*. In Revision, 2024.

Published

22. Liu, M., J. Peñuelas, A. T. Trugman, **G. Vargas G.**, L. Yang, and W. R. L. Anderegg (2024). Diverging responses of terrestrial ecosystems to water stress post disturbance. *Nature Climate Change*. Accepted.
21. **Vargas G.**, G., H. Marcano, T. Ruzycki, T. Wood, W. R. L. Anderegg, J. S. Powers, and E. H. Helmer (2024). Aridity and forest age mediate landscape scale patterns of tropical forest resistance to cyclonic storms. *Journal of Ecology*. Accepted. DOI: <https://doi.org/10.1111/1365-2745.14437>

Fellowships, Grants and Awards (total: \$ 845,193)

Grants

- 2022 National Science Foundation. LTREB: A Mechanistic Understanding of Ecosystem Resilience and Recovery in Seasonally Dry Tropical Forest Experiencing Disturbance. PI: Jennifer Powers, Co-PI: David Medvigy, Senior Personnel: **German Vargas G.**, Justin Becknell, Christina Smith-Martin, and Mikey O'Brien. **\$597,693**

Fellowships and Awards

2022	NOAA Climate & Global Change Postdoctoral Fellowship: A mechanistic framework to forecast vegetation resilience to drought across scales. Hosting institution: University of Utah, Mentor: William R.L. Anderegg, Project Collaborator: David Medvige. \$156,000
2020	Doctoral Dissertation Fellowship, Graduate School, University of Minnesota (UMN). \$25,000
2019	Student Fellowship, Near-term Ecological Forecasting Initiative award. \$700
2019	Dissertation Fellowship, Interdisciplinary Center for the Study of Global Change (ICGC), UMN. \$10,000
2018	Pre-dissertation Fellowship, ICGC, UMN. \$4,000
2018	Pathways to Advance Student Success Fellowship, College of Biological Sciences (CBS), UMN. \$2,500
2017	Summer Fellowship, Department of Plant and Microbial Biology, UMN. \$6,000
2017	Wilkes Natural History Award, Bell Museum of Natural History, UMN. \$2,500
2017	Plant hydraulics workshop, Plant Physiology Section, Ecological Society of America. \$500
2017	Student Travel Fellowship, U.S. Department of Energy. \$400
2016	Scholar Fellowship, ICGC, UMN. \$20,000
2016	Diversity Enrollment Fellowship, CBS, UMN. \$10,000
2015	Donald and Beverly Stone Fellowship, Organization for Tropical Studies (OTS). \$2,500
2014	Short-term Fellowship, Smithsonian Tropical Research Institute (STRI), Panama. \$3,200
2012	Undergraduate Internship, STRI, Panama. \$2,400
2011	Research Experience for Undergraduates, OTS. \$1800

Teaching experience

Teaching Assistant:

Plant and Microbial Biology Orientation, PMB 8900-2, 2020, University of Minnesota.

Applied Biostatistics, BIOL 3272/5272, TA, 2018-2019, University of Minnesota.

Plant Anatomy and Physiology, BIF 404, 2011-2012, National University of Costa Rica.

Guest Lecturer:

Biogeography of plant drought tolerance, BTNY 3473: Plant Geography, Weber State University.

Using conditionals “*ifelse*” in R statistical programming language, National University of Costa Rica.

Climate Change Ecology, EEB 3001: Ecology and Society, University of Minnesota.

Community Ecology, EEB 3001: Ecology and Society, University of Minnesota.

Light response curves using a Li-Cor Infrared Gas Analyzer LI-6400xt, National University of Costa Rica.

Mentorship:

Postgraduate Trainees: Alejandra Pérez Enríquez, Kasper Coppieters, Simon Dequeker, Caroline Bray, Slendy Rodríguez Alarcón.

Undergraduate students: Lillie I. Congram, Rubi del Mar Santiago, Julio Zúñiga Marín, Duncan Coles, David Rivera Polanco, Fiorella R. Durán, Gabriela Quesada Ávila.

Presentations (first author only)

Professional meetings and conferences

Vargas G., G., D. Medvige, J. S. Powers, R. Chazdon, and W. R. L. Anderegg (2024). Tropical demographic niches and hydraulic traits: thinking outside the evergreen vs. deciduous box. Poster presentation during the Multiscale Plant Vascular Biology Gordon Research Conference (Maine, USA).

Vargas G., G., H. Marcano, T. Ruzycki, T. Wood, and W. R. L. Anderegg, J. S. Powers, and E. H. Helmer (2023). Functional drivers of tropical forest resistance to hurricane disturbances. Oral presentation during the Ecological Society of America conference (Portland, USA).

Vargas G., G., K. L. Kerr, L. D. L. Anderegg, and W. R. L. Anderegg (2022). Incorporating spatial trait variation in a stomatal optimization model to predict plant sensitivity to drought. Poster presentation during the Multiscale Plant Vascular Biology Gordon Research Conference (Maine, USA).

Vargas G., G., N. Kunert, W. M. Hammond, Z. C. Berry, L. K. Werden, C. Smith-Martin, B. Wolfe, L. Toro, A. Mondragón-Botero, J. Pinto-Ledezma, N. B. Schwartz, M. Uriarte, L. Sack, K. Anderson-Texeira and J. S. Powers (2021). Plant hydraulics and rainfall niches: a mechanistic approach to explain species distributions across tropical biomes. Oral presentation during the American Geophysical

- Union (New Orleans, USA).
- Vargas G., G.** (2021). Leaf habits determine the variation of drought tolerance in tropical dry forest trees. Presentation in Spanish, Pop-up Symposium on Tropical Dry Forest Ecology (Virtual).
- Vargas G., G.**, D. Perez-Aviles, D. Pereira-Arias, J. Tijerín-Triviño, L. D. Pereira-Arias, D. Medvigy, B. G. Waring, and J. S. Powers (2021). Drought-ex: soil fertility affects tropical dry forest responses to experimental drought. Oral presentation, Ecological Society of America (Virtual).
- Vargas G., G.**, D. Perez-Aviles, D. Medvigy, J. Becknell and J. S. Powers (2020). Plant Hydraulic Traits Variation Across Temporal and Spatial Scales Affects Responses to Drought in the Tropical Dry Forest Biome. Oral presentation, American Geophysical Union (Virtual).
- Vargas G., G.**, D. Perez-Aviles, D. Medvigy, B. Waring and J. Powers (2018). Tropical dry forest's responses to drought depend upon soil nutrient availability and plant community composition. Poster presentation during the American Geophysical Union (Washington DC, USA).
- Vargas G., G.**, X. Xu, C. Smith, D. Medvigy, L. Werden, J. Becknell, T. Brodribb, D. Peréz-Aviles and J. Powers (2017). Mortality of tropical dry forest tree species following an extreme drought. Oral presentation at the symposium “Exploring the fate of tropical forests under drier climates: linking mechanisms to models”, Association for Tropical Biology and Conservation, (Merida, Mexico).
- Vargas G., G.**, D. Medvigy, F. Hoffman, X. Yang, B. Waring, K. Allen, X. Xu, A. Trierweiler, C. Pizano, B. Salgado, Juan Dupuy, C. Hulshof, S. V. Bloem, T. Brodribb, C. Smith, D. Perez, M. Gei, E. Calderon and J. Powers (2017). Understanding the effects of drought and nutrient deposition on tree growth in tropical dry forests. Poster presentation at the Department of Energy-Environmental System Science PI meeting (Washington DC, USA).
- Vargas G., G.** (2016). Drought adaptations of tropical dry forest trees in relation to stand age and soil type (Licentiate thesis defense). National University of Costa Rica (Heredia, Costa Rica).
- Vargas G., G.** & T. Brenes-Arguedas (2013). Physiological tradeoffs in carbon assimilation, growth and drought tolerance among 20 tropical shade tolerant plant species. Oral presentation at the 2013 ATBC Annual Meeting: New Frontiers in Tropical Biology the Next 50 Years (San José, Costa Rica).
- Vargas G., G.** & R.A. Cordero S. (2012). Leaf Photosynthetic Responses to Temperature of Two Tropical Rainforest Tree Species. Oral presentation at the 6th International Canopy Conference, (Oaxaca, Mexico).

Departmental seminars and invited talks

- Vargas G., G.** (2023). Rasgos Funcionales aplicados a la restauración ecológica. Variabilidad intra-específica de rasgos fisiológicos y su importancia en un modelo. Invited participation in a discussion forum for the Latin American Network of Plant Ecophysiolists (Virtual).
- Vargas G., G.** (2023). Variabilidad intra-específica de rasgos fisiológicos y su importancia en un modelo mecanístico de optimización estomática. Invited talk in Spanish for the Latin American Network of Plant Ecophysiolists (Virtual).
- Vargas G., G.** (2023). Understanding plant responses to environmental stress through plant physiology. Departmental seminar, Oregon State University (Corvallis, Oregon).
- Vargas G., G.** (2023). Understanding ecological resilience through plant physiology. Departmental seminar, University of Tennessee Knoxville (Knoxville, Tennessee).
- Vargas G., G.** (2023). Studying forests' vulnerability to climate change through plant ecophysiology. Departmental seminar, University of Arizona (Virtual).
- Vargas G., G.** (2023). Understanding the distribution of drought tolerance in tropical forests. ForestGEO Seminar Series, Smithsonian Research Institute (Virtual).
- Vargas G., G.** (2022). Understanding ecological resilience through plant physiology. Departmental seminar, Auburn University (Auburn, Alabama).
- Vargas G., G.** (2022). Linking plant function to ecological processes. Departmental seminar, Weber State University (Ogden, Utah).
- Vargas G., G.** (2021). Size-dependent drought sensitivity of tree diameter growth in a tropical dry forest. Invited oral presentation for the National Science Foundation Long-Term Ecological Research (LTER) Network Community Building Seminars (Virtual).
- Vargas G., G.** (2019). Drought tolerance and climate change adaptation in tropical dry forest trees. Invited talk, II Simposio Cultivo de Especies Forestales Nativas (Guanacaste, Costa Rica).

- Vargas G., G.** (2018). Rainfall manipulation in a tropical dry forest. Lightning talk, Department of Plant and Microbial Biology Spring Retreat, University of Minnesota (Saint Paul, Minnesota).
- Vargas G., G.**, (2017). Studying the vulnerability to climate change of Mesoamerican dry forests. Invited talk, Universidad Marista de Merida (Merida, Mexico).

Additional training

- 2022 Training in outreach and building community relationships in the sciences, STEM Ambassador Program (<https://stemap.org/>), College of Science, The University of Utah.
- 2020 Google Earth-Engine Data Suite Use. Organization for Tropical Studies.
- 2019 Near-term Ecological Forecasting Course. Near-term Ecological Forecasting Initiative, Boston University.
- 2019 HHMI Teaching Assistant Course: Inclusive Teaching and Diversity, College of Biological Sciences, University of Minnesota (Spring Session 3).
- 2018 HHMI Teaching Assistant Course: Inclusive Teaching and Diversity, College of Biological Sciences, University of Minnesota (Fall Session 2).
- 2018 HHMI Teaching Assistant Course: Inclusive Teaching and Diversity, College of Biological Sciences, University of Minnesota (Spring Session 1).
- 2017 Plant Hydraulics Workshop Summer 2017 Ecological Society of America – Physiology Section, University of Idaho.

Professional service

Public outreach

- 2022 Science outreach on the role of tropical trees in the water cycle to public high school students in Costa Rica. Collaboration with the Biological Education Program of Guanacaste Conservation Area (<https://www.gdfcf.org/biological-education-peb>).
- 2019 Science outreach on the impacts of drought in tropical dry forests to local conservation and tourism stakeholders, Guanacaste Conservation Area, Costa Rica. Collaboration with the organization Investigadores ACG (<http://investigadoresacg.org/blog>).
- 2019 Science outreach on tropical dry forest monitoring and climate change to high school students in collaboration with the organization Seeds of Change (<https://www.soc-cr.org>).
- 2019 Science outreach on flower anatomy, pollination and reproduction in plants to public elementary school students, Guanacaste Conservation Area, Costa Rica (<https://www.gdfcf.org/biological-education-peb>).
- 2018 Market Science outreach on tropical plant diversity to children and adults in Midtown Farmer's Market, Minneapolis, Minnesota (<https://cbs.umn.edu/market-science>).

Contributions to Diversity, Equity, and Inclusion in STEM

- 2020 – present Diversity, Equity, and Inclusion Committee. Member, Association for Tropical Biology and Conservation.
- 2020 – 2021 Diversity, Equity, and Inclusion Committee, Department of Plant and Microbial Biology, University of Minnesota.

Professional memberships

- 2020 – present Ecological Society of America (ESA)
- 2018 – present American Geophysical Union (AGU)
- 2017 – present Association for Tropical Biology and Conservation (ATBC)

Manuscript Reviews: *Basic Applied Ecology, Biogeosciences, Biotropica, Ecology and Evolution, Ecology Letters, Ecological Monographs, Ecosystems, FLORA, Functional Ecology, Journal of Ecology, Journal of Vegetation Science, New Phytologist, New Zealand Journal of Botany, OIKOS, Plant Ecology, Plant Physiology, PloS One, Proceedings of the National Academy of Science (PNAS), Proceedings of the Royal Society B: Biological Sciences (PROCB), Revista de Biología Tropical.*

Skills

Languages: Spanish (native), English (fluent), Portuguese (Beginner)

Software, and programming skills: R, JAGS (Bayesian statistics), C++, Git, Linux, Shell scripting, ImageJ,

Google Earth Engine, ArcGIS, QGIS.
